

1. Proposal to get costs for School MUGA entrance and car parking.

Costs to include:

- Clearance of trees/shrubbery from Wareham Road to MUGA 'courtyard' leaving covering against the school fence. Clearance includes removal of tree stumps.
- Removal of entrance gate and posts.
- Re-siting of MUGA sign (maybe a new one would be easier).
- Cover parking surface with suitable loose gravel or similar

Note that we will retain a small number of trees for cover and to provide variation.

2. Proposal to get costs for Eldons Drove entrance.

Costs to include:

- Install new gate to field diagonally across to school fence.
- Extend the clearance of the shrubbery down the lane to the gate
- Extend the gravel path down the lane to the gate

Note that we are not planning to install a hard path inside the school grounds at this stage
