

Working with you to keep you safe

You will be aware the current Government guidance is designed to protect the NHS, save lives and to fight the spread of Coronavirus.

“The Government says stay at home in order to save lives. With the intention of helping to keep you safe, we are working with you to consider whether your travel is absolutely necessary.”

The Government guidance is:

- Stay local - use open spaces near to your home where possible - do not travel unnecessarily
- Only go outside alone or with members of your own household
- Keep at least two metres apart from anyone outside your household at all times
- Take hygiene precautions when you are outside, and wash your hands as soon as you are back indoors.

During this time we will be actively engaging with the public to explain the Government guidance and help everyone to play their part to protect our communities.

Stay at home. Protect the NHS. Save Lives
